
INSTRUCTIONS FOR AUTHORS

AUTHOR GUIDELINES

Authors are asked to direct all communication toward Journal Office to the following email addresses: fuad.brkic@ukctuzla.ba or bffar@yahoo.com. Please avoid sending submissions, manuscripts, forms (except Authorship Statement Form), subscription requests etc. in regular mail. Editorial board will not disclose any information about manuscripts (including their receipt, content, status in the reviewing process, criticism by reviewers, or ultimate fate) to anyone other than the authors and reviewers. There is no restriction on the length of the papers. Electronic files regarding the full details of the experimental procedure (conference slides, video sequences, software, etc), which can not be published in a normal way, can be deposited as supplementary material.

PUBLICATION CATEGORIES

Acta Medica Saliniana publishes original papers, professional papers, review papers, case reports and letters to editor which deal with all aspects of biomedicine and related research.

CRITERIA FOR MANUSCRIPT

Submitted manuscripts must meet the following criteria:

- the material must be original
- the writing must be clear, concise and unambiguous
- the data are valid
- the conclusions drawn by the authors must be reasonable and supportable
- the information must be relevant and interesting.

CORRESPONDING AUTHOR (CA)

Corresponding author (CA) is the responsible person for electronically submitting a manuscript for publication consideration. CA must provide complete mailing addresses and e-mail addresses for all the contributing authors. The CA will be identified as such in the published article.

PREPARING MANUSCRIPT FOR SUBMISSION

Contributors should prepare their manuscripts in accordance with the Uniform Requirements for Manuscripts Submitted to Biomedical Journals.

Use Système International (SI) measurements only. Use non-proprietary (i.e. generic) drug names, unless the specific trade name of a drug is directly relevant to the discussion. Avoid unnecessary abbreviations.

Single-space the text throughout. This includes the title page, abstract, text, acknowledgments, references, tables and figure legends. Use Times New Romans or Book Antiqua font and a 12-point font size.

On the title page DO NOT include the names and affiliations of authors. Authors' full address, phone and fax numbers and e-mail address must be provided during submission process by cor-

responding author and also as a separate cover page uploaded as a supplementary file and titled `Cover_page.doc`. In addition to full title, a short title not more than 60 characters is appreciated.

Include a structured abstract of no more than 250 words with following sections: Background, Aim, Methods, Results, Conclusion. A list of three to five keywords must be given, and placed after the Abstract.

For experimental investigations of human or animal subjects, state in the Methods section of the manuscript that an appropriate institutional review board approved the project. Provide the approval numbers as necessary. For investigations of human subjects, state in the Methods section the manner in which informed consent was obtained.

REFERENCING FORMAT

Number the references in the order that they appear in the text of the manuscript. When listing references, follow the uniform requirements style (the Vancouver style <http://www.icmje.org/index.html#reference>) that is based largely on an ANSI standard style adapted by the NLM for its databases (e.g., MEDLINE). Reference numbers should be placed in square brackets [] throughout the text, and placed before the punctuation; for example [4], [2, 3] or [1-3], and all the references should be listed separately and as the last section at the end of the manuscript.

TABLES, FIGURES AND ILLUSTRATIONS

Authors are encouraged to prepare figures and schemes in jpg, tif, png or eps format in 300 dots per inch resolution. Conference slides, video sequences, software, etc., can be included and published as supplementary material.

Tables should be inserted into the main text, and numbers and titles for all tables supplied. All table columns should have an explanatory heading. Do not create tables manually, by using tab and drawing lines! Use Insert table tool in MS Word. A table must not contain vertical line borders.

All tables and figures should be numbered in the order of their citation in the text. Include legends for all figures, schemes and tables. The legends should be prepared as a separate paragraph of the main text and placed in the main text before a table and after a figure or a scheme.

Original files for figures and schemes in jpg, tif, png or eps format and in 300 dots per inch resolution should also be uploaded separately as supplementary files.

SUBMISSION PREPARATION CHECKLIST

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in Microsoft Word, RTF, or WordPerfect document file format.

- The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines, which is found in About the Journal.
- The cover page with authors' names and affiliations is provided as a separate page in supplementary material in order to ensure blind review. Submitting author will provide full names and affiliations during the submission process also.
- A structured abstract of no more than 250 words has been included with the text. A list of three to five keywords has been given, and placed after the Abstract.
- Reference numbers have been placed in square brackets [] throughout the text, and placed after the punctuation, and numbered in the order that they appear in the text of the manuscript.
- Listed references (i.e. bibliography at the end) are based on the uniform requirements style (the Vancouver style).

AFTER THE MANUSCRIPT ACCEPTANCE

Once your manuscript is accepted for publications, Editorial office will send you an Authorship Statement form which is to be filled and sent back to AMS by fax or email. Please note that we will not publish your paper until we receive this form.
